

REQUEST FOR ENGINE INFORMATION

The museum has limited personnel and funds to deal with the many engine enquiries we receive. Our archive holds over 300,000 various engine records alone, and our volunteers are trying to collate all the data we have to make it more researchable, but this does take time. Lack of funds prevents us scanning the records onto electronic formats at present.

To help us help you, please provide at least the information marked in **BOLD**, without these we are unable to proceed with your enquiry. Please provide clear photographs to help us, unfortunately we cannot return these. **We can only provide the dating service using postal mail; no electronic requests can be dealt with.** The museum reserves the right to refuse any request for information at its discretion.

Currently, the museum can provide a dating record service for Crossley, Tangye (some), Mirrlees, Blackstone and Gardner engines; even then we cannot guarantee that we have all the records but will provide what information we can from those available. We also have a limited amount of information on National engines. We currently do not provide a technical enquiry service. Please note that none of the records tell us what the original paint colour was.

The form overleaf needs to be completed (for each engine) and returned with your photographs, and any donation to
Engine Enquiries, Anson Engine Museum, Anson Road, Poynton, Cheshire SK12 1TD

Please tick:-

- I own the engine that I am enquiring about overleaf.
- I enclose 3 colour photographs of the engine which I understand will not be returned.
- I enclose £ as a donation to the museum's running costs. NB
*Please make overseas payments by Paypal using button on home page of our website as bank charges for overseas cheques and monies is very high, Please put note saying what the Paypal payment is for. **Thank you for any donation made.**
Please note it still takes time even when we turn up no information*
- I understand the museum has many priorities and it may be some time before the information is sent to me.

<i>Office use only</i>
